Return

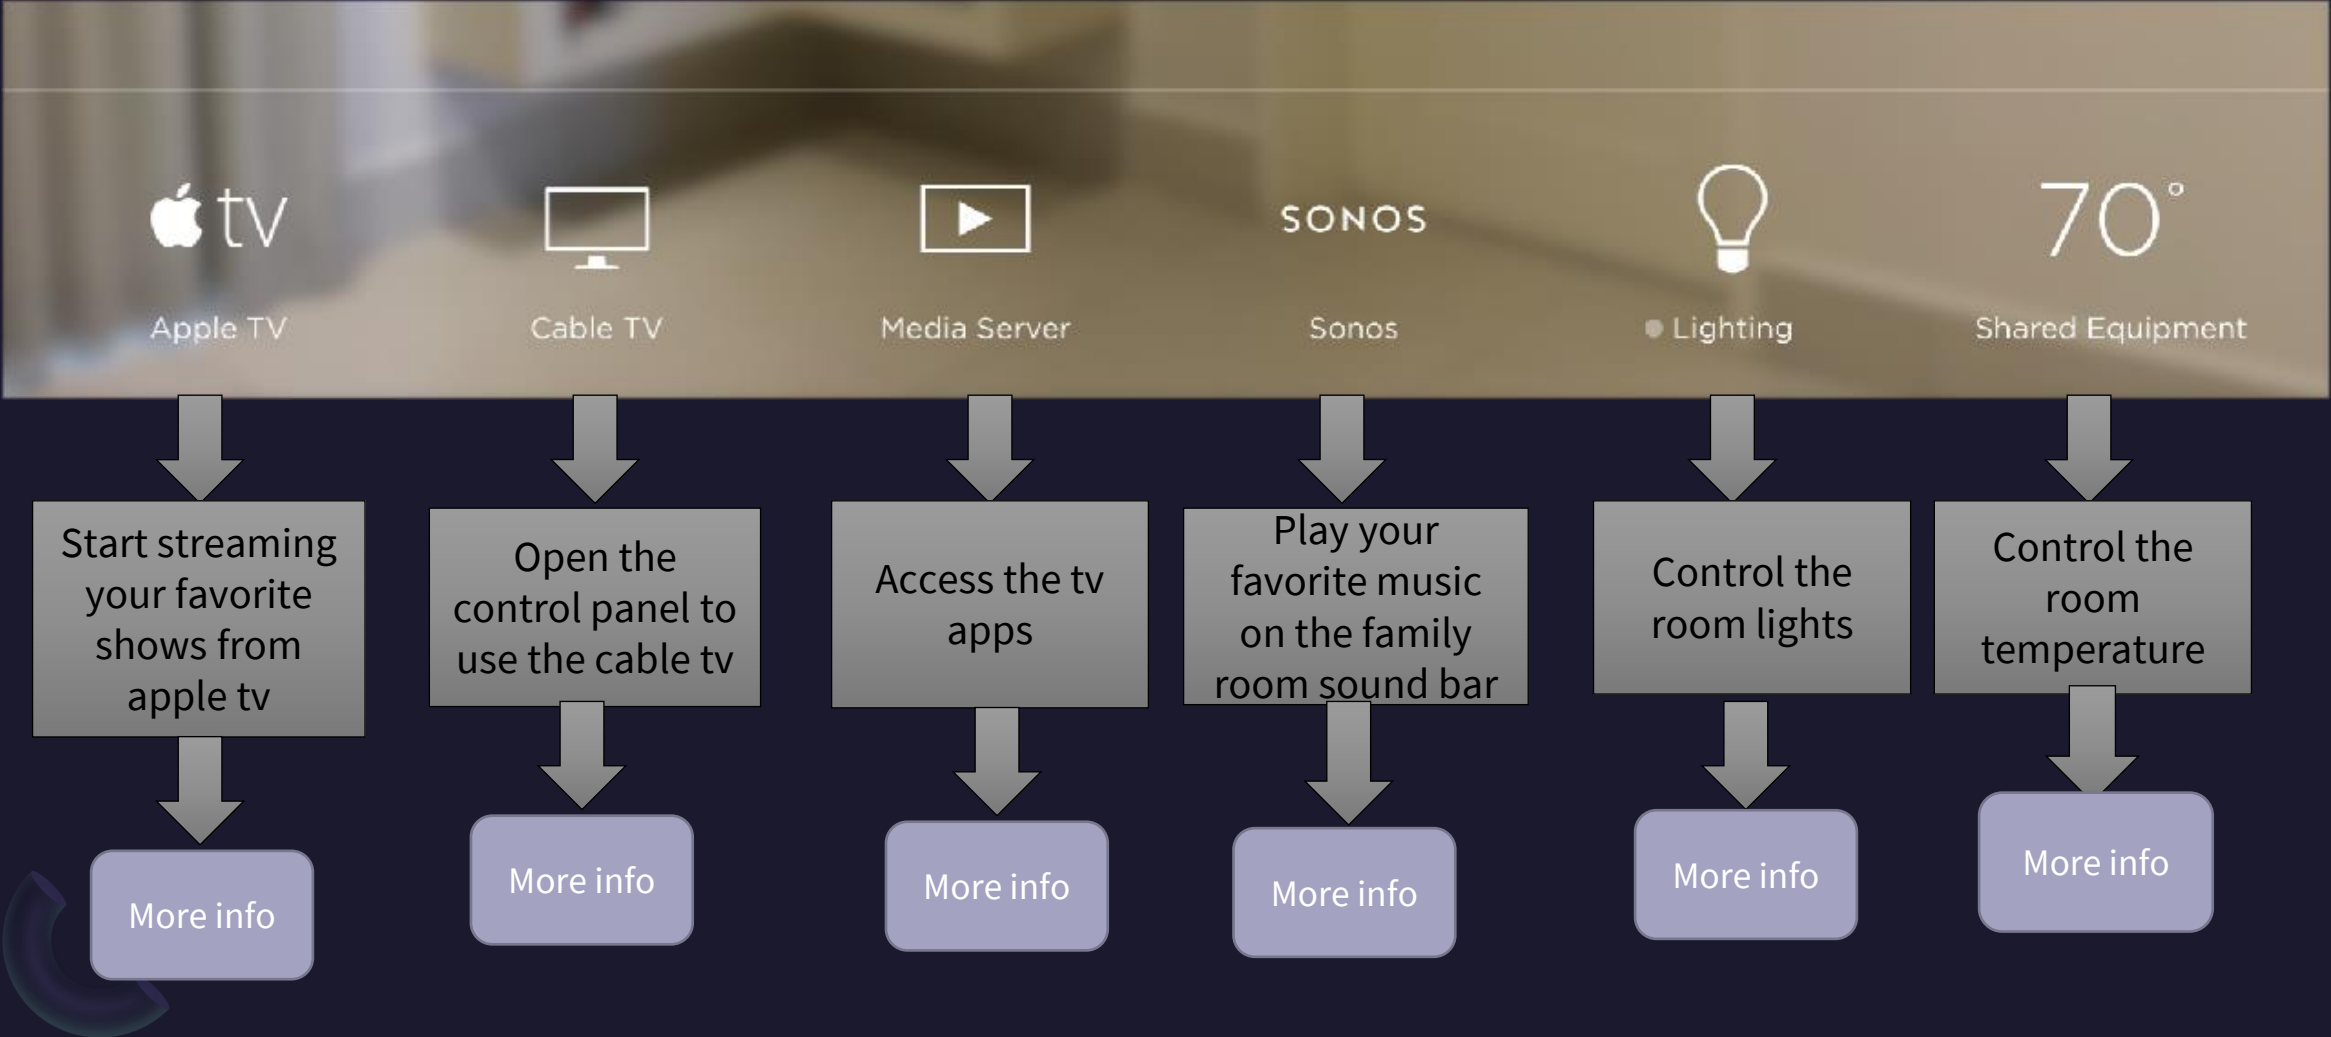

# Hallway

Control the  
room lights

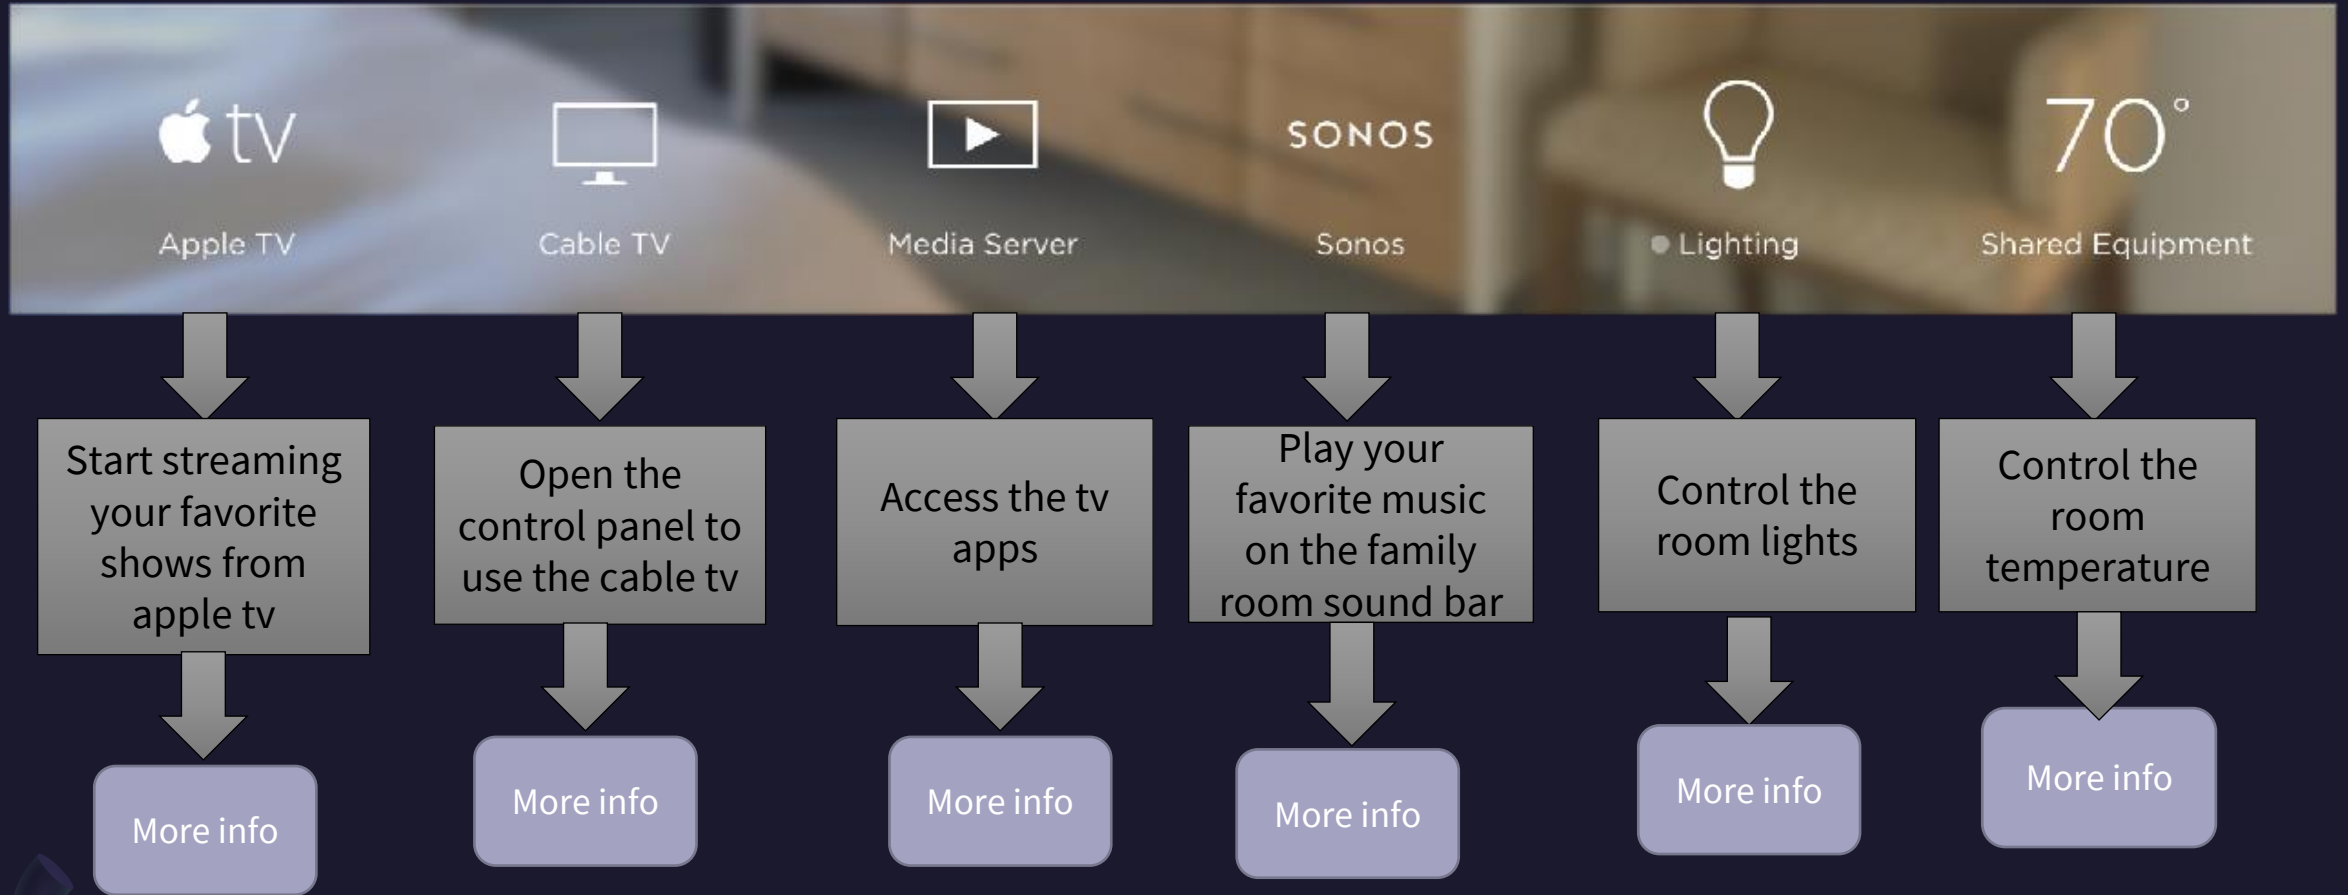

More info

# Bedroom 1

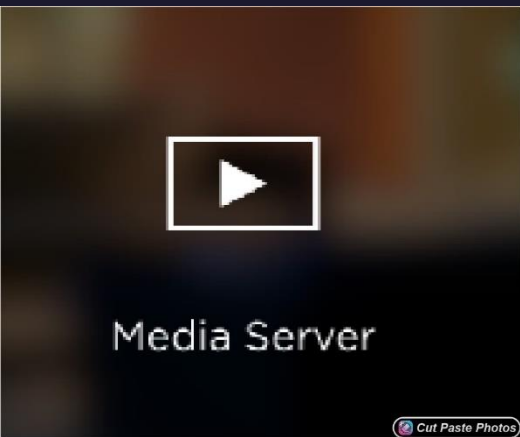

Return

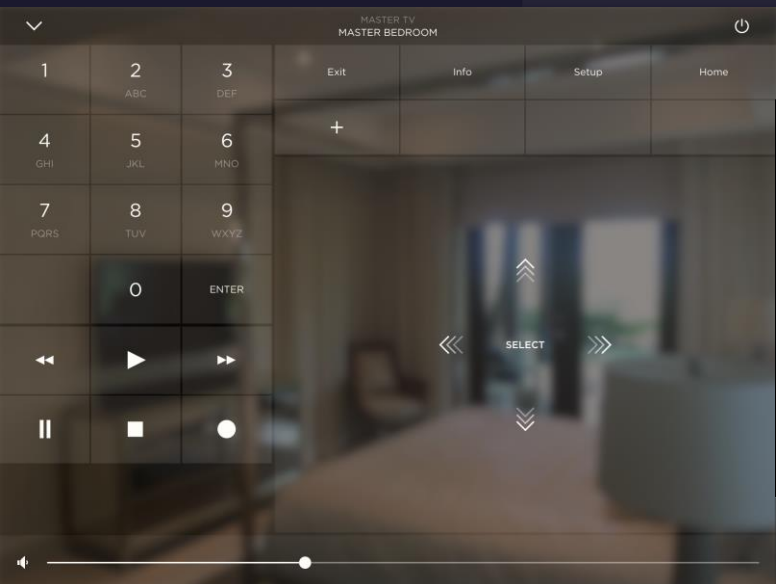

# Master Bedroom

# Media Server

Open the media server to  
gain access to tv apps

Now in the control panel just  
swipe to move around the apps  
after finding the one you want to  
watch simply tap the screen to  
open the app

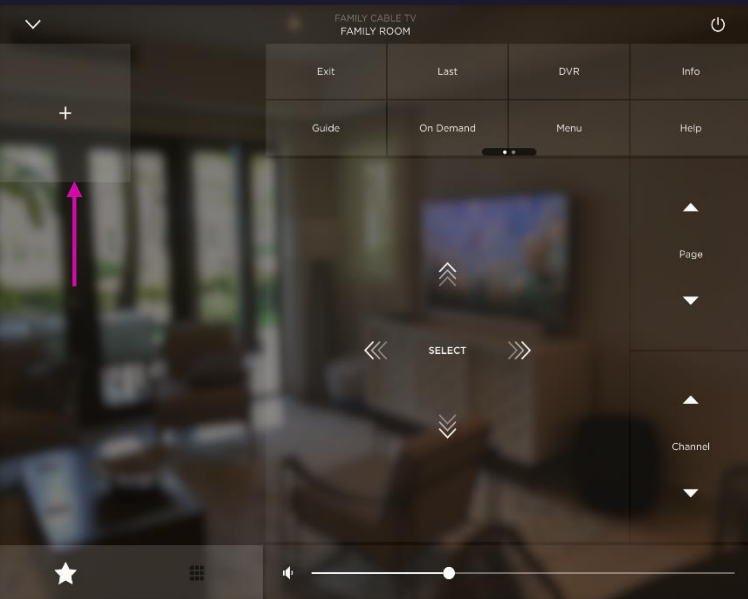

Return

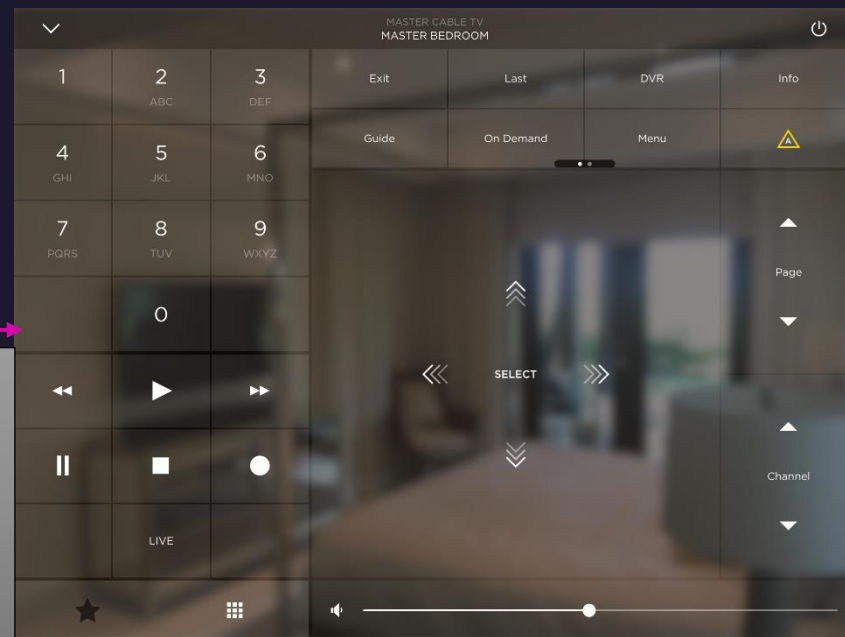

# Cable Tv

Tap the Cable tv to open the control panel and start watching the tv.

Tap the plus button at the left side to access more commands.

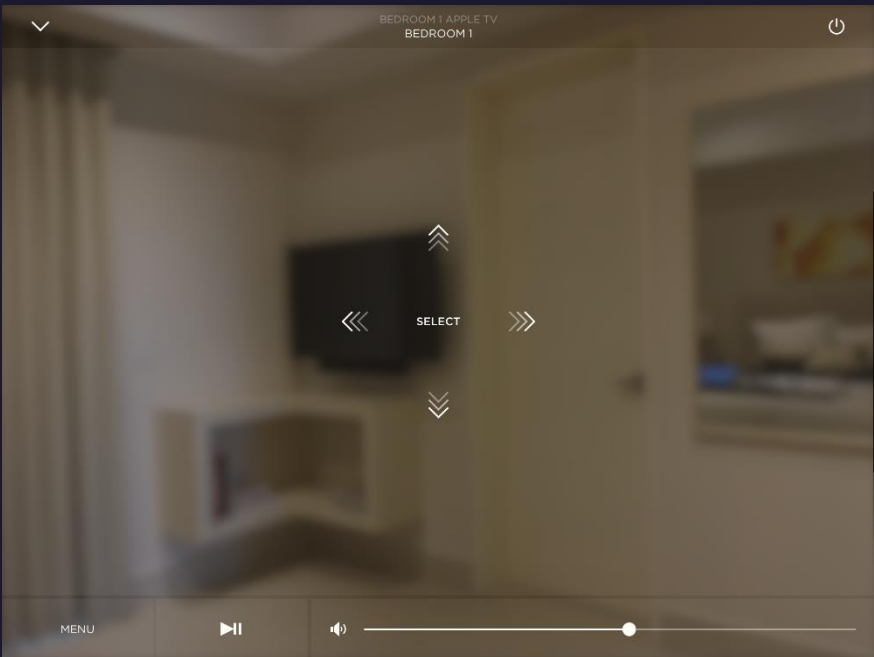

Return

# Apple Tv

Touch the Apple Tv icon to start streaming

To move you just swipe in the desire direction and to select just tap the screen.

Return

# Lighting

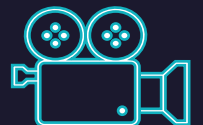

Here you will find all the lights controls

Just touch the white circle and drag it from left to right to change its intensity or complete it left to turn it off. As well use the off/on button to turn them on/off.

turn them on/off.  
well use the off/on button to

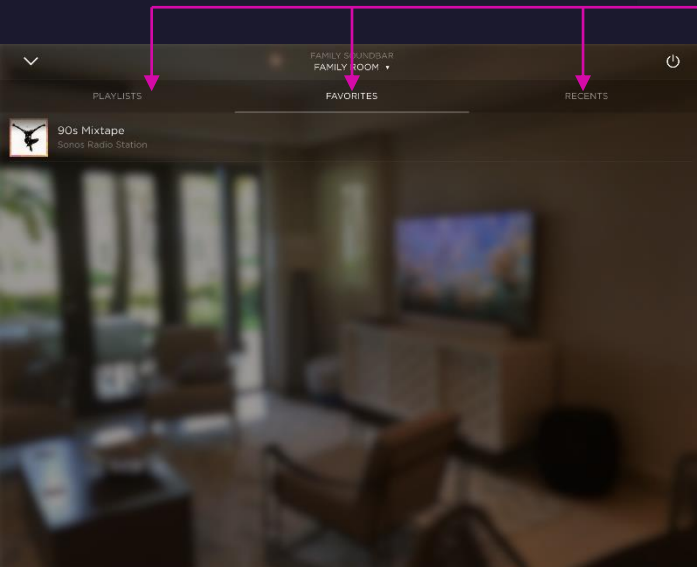

Video demo

Return

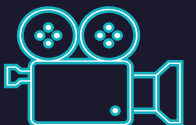

# Sonos

To play music tap the Sonos icon

Here you can see playlists, favorites and recent played songs. You can download the Sonos app to create your list and play music from your phone.

Video demo

# Air conditioner

If you want to change the air temperature just touch Shared Equipment

Afterwards this circle will appear and from here you can use the arrows to set the desire temperature or tap and hold the shape in the circle and move it in circular motion to change the temperature
